Deploy Aikido seamlessly with no blind spots

A successful Aikido implementation is a skill in itself. We ensure a strategic deployment aligned with your priorities, designed to strengthen your developers' efficiency.

Our support includes:

· Assessing your attack surface and critical vulnerabilities

· Optimizing the configuration of XDR, EDR, and NDR capabilities

· Managing alerts, threats, and false positives

· Training and empowering your IT teams

Looking for experts you can rely on?
We've got you covered.

Easily integrate Aikido into your DevOps pipelines to ensure security without slowing down your development processes.
